DANIEL PERLMAN

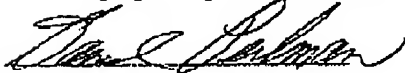

781 736 2478 P.01

EXHIBIT C

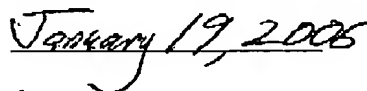

Affidavit of Daniel Perlman

I, Dr. Daniel Perlman, a natural person residing at 94 Oakland Avenue, Arlington, MA 02476, do hereby state as follows, under pain and penalty of perjury:

1. I am over 21 years of age and competent to make this affidavit.
2. I am the applicant of US Patent Application Serial No. 10/708,192.
3. I have a bachelor's degree in chemistry and a PhD degree in molecular biology.
4. I am presently employed by Brandeis University of Waltham, MA as a research and development Senior Scientist, and have been so employed for the past 16 years.
5. It is my opinion that the person of ordinary skill in the art (POSA) to which US Patent Application Serial No. 10/708,192 is directed, is a laboratory scientist with a bachelor's degree in chemistry, who would routinely use a balance and weighing dishes to weigh out reagents.
6. It is further my opinion and experience that such a POSA knows little or nothing about the science of paper products or their methods of manufacture.

Dr. Daniel Perlman
